Accident Investigation Report

Use with 296-800-320 Accidents and Incidents, Investigating and Reporting

This sample report form can help document the findings of a preliminary investigation into an accident or incident in your workplace. You can copy and use this form or make your own. Fill out an investigation report as soon as possible after an accident or incident.

Employee(s) name(s): _____

Time & date of accident/incident: _____

Job title(s) and department(s): _____

Supervisor/lead person: _____

Witnesses: _____

Brief description of the accident or incident: _____

Indicate body part affected:

Did the injured employee(s) see a doctor?

() Yes () No

Accident Investigation Report

Use with 296-800-320 Accidents and Incidents, Investigating and Reporting

If yes, did you file an employer's portion of a worker's compensation form?

() Yes () No

Did the injured employee(s) go home during their work shift?

() Yes () No

If yes, list the date and time injured employee(s) left job(s): _____

Supervisor's Comments: _____

What could have been done to prevent this accident/incident? _____

Have the unsafe conditions been corrected?

() Yes () No

If yes, what has been done? _____

If no, what needs to be done? _____

Employer or Supervisor's signature: _____

Date: _____

Additional comments/notes: _____

Accident/Incident Table

Use with 296-800-320 Accidents and Investigations

What's the purpose of this table?

To help you determine if you need to contact L&I or do an investigation in your workplace after an accident or incident.

When do we use this table?

Use this tool when an accident or incident happens or as soon as possible afterwards.

Accident/Incident Table:

Action you must take:	In case of death or probable death	Accident involving inpatient hospitalization of 2 or more people	In case of serious injury or illness	Near miss (accident almost happened) or non-serious injury or illness
Report the accident to L&I and include your phone number.	Required	Required	Not Required	Not Required
Complete and document an investigation.	Required	Required	Required	Not Required

Questions?

You can call L&I's toll-free number for more information: 1-800-4BE SAFE

Additional Program Requirements Table

This table will help you determine additional programs, plans, and other related requirements that might be needed beyond your accident prevention program (your total safety and health plan). If you are required to have additional written programs or procedures, they can be included in your accident prevention program or covered in supplemental documents.

To use this table:

1. Determine if any of the activities, hazards or situations listed in the first column apply to your workplace.
2. The second column lists what you may have to do or additional written programs you may be required to have.
3. Look-up the standard or rule that is in column three. This will allow you to determine if the actual situation at your workplace makes it necessary for you to do anything and will identify what you must do.

Note:

- There are record keeping requirements in chapter 296-27 WAC and elsewhere that you need to be aware of.
- Certain job-specific activities need written, site or activity-specific work plans (for example, the fall protection work plan and lead exposure in construction work).
- There are vertical standards that apply to specific industries, which may have additional program requirements. Be sure to check to find out if these standards apply to you.

Additional Program Requirements Table

1. If individuals in your workplace:	2. Then you may need to:	3. See:
Are exposed to hazards	Determine personal protective equipment (PPE) required based on a mandatory job hazard assessment. Written certification is also mandatory.	WAC 296-800-160
Work around hazardous chemicals	Establish a written chemical hazard communication program	WAC 296-800-170
Service, adjust, or maintain equipment in your workplace where people could be injured by the unexpected start-up of the machine or the release of stored energy	Establish a written energy control (lockout/tagout) program	Chapter 296-24 WAC, Part A-4 (After November 1, 2004 see Chapter 296-803 WAC)
Work around loud noise	Establish a hearing conservation program, including hearing tests and training	Chapter 296-817 WAC
Weld, cut, or do brazing	Make sure rules and instructions to operate and maintain oxygen or fuel-gas supply equipment are readily available	Chapter 296-24 WAC , Part I
Are required to use respirators or voluntarily use respirators to protect against airborne hazards	Establish a written respirator program	Chapter 296-842 WAC
May be exposed to blood or other potentially infectious material (bloodborne pathogens)	Establish a written exposure control plan	Chapter 296-823 WAC
May encounter confined spaces in your workplace	Conduct a survey to identify confined spaces. If employees are to enter confined spaces, special procedures and a written program may be required	Chapter 296-809 WAC
Work in late night retail (a retail establishment open between 11:00 p.m. and 6:00 a.m.)	Provide crime prevention training as part of your accident prevention program	Chapter 296-832 WAC
May be injured by an activated fire suppression system	Establish a written emergency action plan	Chapter 296-24 WAC, Part G-1
Are required to perform specific actions during emergency situations involving the release of hazardous substances	Establish a written emergency response plan or, if appropriate, a written emergency action plan	Chapter 296-824 WAC and Chapter 296-24 WAC, Part G-1
Are agricultural workers	Follow accident prevention program requirements in WAC 296-307-030. Agricultural employees aren't covered by chapter 296-24 WAC	Chapter 296-307 WAC
Are electrical workers working on or near high voltage	Include additional elements in your accident prevention program	Chapter 296-45 WAC
Are fire fighters	Develop a risk management policy with incident strategies that can be incorporated into the incident command system	Chapter 296-305 WAC

Additional Program Requirements Table

1. If individuals in your workplace:	2. Then you may need to:	3. See:
Are exposed to substances such as asbestos, tremolite, anthophyllite, or atinolite	Establish and implement a written program to reduce employee exposure to or below the permissible limit	Chapter 296-62 WAC, Part I-1
Are involved in hazardous waste operations	Develop and implement a written safety and health program for these operations	Chapter 296-843 WAC
Are involved with diving operations	Develop and maintain a written safe practices manual	Chapter 296-37 WAC
Are involved with ski area facilities and operations	Develop a specific written safety program	Chapter 296-59 WAC
Are involved with telecommunications	Include additional elements in your accident prevention program that specifically cover this work	Chapter 296-32 WAC
May be exposed to specific air contaminants (listed in Chapter 296-62 WAC)	Establish and implement a written compliance program	Chapter 296-62 WAC, Part I
Use powered platforms installed as part of a building to do building maintenance	Provide written work procedures for the operation, safe use, and inspection of the equipment	Chapter 296-24 WAC, Part J-3
Work in laboratory using hazardous chemicals	Develop and carry out the provisions of a written chemical hygiene plan	Chapter 296-62 WAC, Part Q
Work in grain handling facilities	Develop and implement a written housekeeping program	Chapter 296-99 WAC
May be exposed to certain carcinogens (cancer causing agents)	Implement a written program to reduce exposure to or below permissible limits	Chapter 296-62 WAC, Part G
Work with toxic, reactive, flammable, or explosive chemicals (process safety management of highly hazardous chemicals)	Develop a written plan for preventing or minimizing the consequences of catastrophic releases	Chapter 296-67 WAC
Are blasting from an aircraft	This requires a written program approved by the Federal Aviation Administration and the director of the department of labor and industries	Chapter 296-59 WAC
Are exposed to operating coke ovens	Implement a written program to reduce employee exposure	Chapter 296-62 WAC, Part O

Employee Rights Under WISHA

Use with WAC 296-800-120 Employee Responsibilities & Chapter 296-360 WAC Discrimination

If you, as an employee, complain about or report information about safety or health issues, you have specific rights protected under WISHA. See the table below to find out more.

If:	Then:
You believe you're being asked to do something potentially unsafe...	Report it to your employer and ask them to correct it, ask for other work, remain on the job until ordered to leave by the employer, or inform the employer that you will refuse to work if the hazard is not corrected.
You file a Safety or Health complaint for violations of Washington Administrative Code (WAC)...	L&I will review your complaint to see if it warrants investigation.
You quit or leave the worksite because your employer asks you to do something potentially unsafe on the job...	WISHA may not be able to protect your rights or investigate your complaint. However, you are not required to do potentially unsafe work.
You give a witness statement to a compliance inspector during an accident investigation or safety and health inspection...	You may ask to have your identity withheld at the time you give your statement. The compliance inspector should have you date, sign, and check the applicable blocks on a witness statement form.
Your employer retaliates against you for filing a complaint or giving a compliance inspector a statement about an accident or safety and health inspection...	You have 30 days to file a discrimination complaint against your employer. To file a complaint contact your local Labor & Industries office and ask for the WISHA Discrimination Section.

Note:

Other protections exist for employees under Title 51.

Questions?

You can either call 1-800 4BESAFE or visit the WISHA website at <http://www.lni.wa.gov/wisha> for more information.

Hazard Assessment Checklist

Use with WAC 296-800-160 Personal Protective Equipment (PPE)

This checklist can help you do a hazard assessment to see if employees need to use personal protective equipment (PPE). You can make copies or develop a form that is appropriate to your workplace.

Some work activities are more hazardous than others. This list can help identify those activities that may create hazards for your employees. Read through the list, putting a check next to any word that describes an activity in your workplace. We've grouped the activities according to what part of the body might need PPE.

Report of a Workplace Hazard

Use with WAC 296-800-120 Employee Responsibilities and WAC 296-800-140 Accident Prevention Program

This is an optional form, that either, an employee or employer can use to report a hazard.

If you complete this as an employee, give a completed copy to your employer. If you don't want to include your name on the form, make sure to give enough details about the hazard so your employer can recognize and correct it.

Your name: _____	Today's Date: _____
(Optional)	
Briefly describe the workplace hazard: (Please give more details if you are filling this out anonymously. Use the back if you need more room)	
Where is the hazard located? _____ _____	
Has the hazard been reported to your employer? _____	
If so, who was it reported to? _____	
Briefly describe what's been done to correct the hazard _____ _____ _____	
Who took action to correct the hazard? _____ _____ _____	

Safety Meeting Minutes

Use with WAC 296-800-130 Safety Committees and Safety Meetings

This form can help document the minutes of safety meetings in your workplace. This particular form isn't required, but shows the kind of information you need for your records. You can either copy this form or make your own.

Remember, you must:

- Keep meeting minutes for one year.
- Cover specific topics in your meetings.

Agenda:

Review of minutes of last safety meeting: Approved? ☐ Yes ☐ No

Corrections: _____

1. Unfinished business from last meeting:

2. Any hazards reported during this time period?

3. Describe any accident investigations conducted since last meeting. Did you identify and correct the cause of the unsafe situation(s)?

4. Is your accident and illness prevention program working? ☐ Yes ☐ No

If no, describe any recommendations to improve it.

5. What other safety-related topics did you cover in this meeting?

Sample Hazardous Chemical Communication Program

A. Company Policy

_____ (Name of employer) is committed to the prevention of exposures that result in injury and/or illness; and to comply with all applicable state health and safety rules. To make sure that all affected employees know about information concerning the dangers of all hazardous chemicals used by _____ (Name of employer), the following hazardous information program has been established.

All work units of _____ (Name of employer) will participate in the hazard communication program. This written program will be available in _____ (Specify the location) for review by any interested employee.

B. Container Labeling

_____ (Name of person and position) is responsible for container labeling procedures, reviewing, and updating. The labeling system used at _____ (Name of employer) is as follows:
(Describe the labeling system, including the labels or other forms of warning used, and written alternatives to labeling, if any.)

The procedures for proper labeling of all containers, and reviewing and updating label warnings are as follows:

(Also include a description of the procedures for labeling of secondary containers used, including making sure that they have the appropriate identification and hazard warning, etc.; description of procedures for reviewing and updating label warnings, how often the review is conducted, and the name of the person and position who is responsible for reviewing and updating label warnings.)

It is the policy of _____ (Name of employer) that no container will be released for use until the above procedures are followed.

Sample Hazardous Chemical Communication Program

C. Material Safety Data Sheets (MSDS)

_____ is responsible to establish and monitor the employer's MSDS program. This person will make sure procedures are developed to obtain the necessary MSDSs and will review incoming MSDSs for new or significant health and safety information. This person will see that any new information is passed on to affected employees.

(Name of person and position)

The procedures to obtain MSDSs and review incoming MSDSs for new or significant health and safety information are as follows:

(Include procedures on how to make sure copies are current and updated, how any new information is passed on to affected employees, and the procedures for employee access in work areas.)

Copies of MSDSs for all hazardous chemicals in use will be kept in _____. MSDSs will be available to all employees during each work shift. If an MSDS is not available or a new chemical in use does not have an MSDS, immediately contact _____.

(Specify the location)

(The person and position)

Note:

If an alternative to printed Material Safety Data Sheets is used (such as computer data), provide a description of the format.

D. Employee Information and Training

_____ is responsible for the employer/employee training program.

(Name of person and position)

The procedures for how employees will be informed and trained are as follows:

(Include the methods used for general and site-specific training, and how employees will be informed when non-routine tasks arise. If your employees work at other employers' job sites, then specify where and how these employees will have access to MSDSs and labels, and how they will be informed of precautionary measures to take during normal or emergency operations, if any.)

_____ will make sure that before starting work, each new employee of _____ will attend a health and safety orientation that includes information and training on the following:

(Name of person and position)

(Name of employer)

Sample Hazardous Chemical Communication Program

- An overview of the requirements contained in the Hazard Communication Standard.
- Hazardous chemicals present at his or her work places.
- Physical and health risks of the hazardous chemical.
- The symptoms of overexposure.
- How to determine the presence or release of hazardous chemicals in his or her work area.
- How to reduce or prevent exposure to hazardous chemicals through use of control procedures, work practices, and personal protective equipment.
- Steps the employer has taken to reduce or prevent exposure to hazardous chemicals.
- Procedures to follow if employees are overexposed to hazardous chemicals.
- How to read labels and review MSDSs to obtain hazard information.
- Location of the MSDS file and written hazard communication program.

Before introducing a new chemical hazard into any section of this employer, each employee in that section will be given information and training as outlined above for the new chemical.

E. Hazardous non-routine tasks

Periodically, employees are required to perform hazardous non-routine tasks. (Some examples of non-routine tasks are confined space entry, tank cleaning, and painting reactor vessels.) Non-routine tasks that are performed at _____ include

1. _____
2. _____
3. _____

Prior to starting work on such projects, each affected employee will be given information by _____ about the hazardous chemicals he or she may encounter during these activities:

(For each activity, list the specific chemical hazards, protective and safety measures the employee can use, and the steps the employer has taken to reduce the hazards, including ventilation, respirators, presence of another employee, and emergency procedures.)

Sample Hazardous Chemical Communication Program

F. Multi employer work places

It is the responsibility of _____
(Name of person and position) to provide employers of any other employees at the work site with the following information:

- Copies of MSDSs (or make them available at a central location) for any hazardous chemicals that the other employer(s)' employee may be exposed to while working.
- Inform other employers of any precautionary measures that need to be taken to protect employees during normal operating conditions or in foreseeable emergencies.
- Provide other employers with an explanation of the labeling system that is used at the work site.

It is also the responsibility of _____
(Name of person and position) to identify and obtain MSDSs for the chemicals the contractor is bringing into the work place.

G. List of hazardous chemicals

The following is a list of all known hazardous chemicals used by our employees. Further information on each chemical may be obtained by reviewing MSDSs located at

(Specify the location)

MSDS identity:

(Here is where you put the chemical list developed during the inventory. Arrange this list so that you are able to cross-reference it with your MSDS file and the labels on your containers.)

The criteria (e.g., label warnings, MSDS information, etc.) used to evaluate the chemicals are:

(Include a description of a plan for how you will update the list.)

The sample labels on the following page show the type of information you must list on containers of hazardous chemicals. You can copy and use these labels or you can make your own.

Be sure your labels contain the following information:

- Name of Chemical
- Physical Hazards
- Health Hazards, Target Organs or Systems
- Optional information, such as Personal Protective Equipment or Safe Handling

After you've finished typing or writing in your information, print the labels. Then, cut out the individual labels and apply them to your hazardous chemical containers.
